

Shiksha

An Information Management Platform for Indian Schools

19.07.2020

TernaryBit
Chennai

Overview

Shiksha is an Education Information Management platform for the Indian Education System. It has the following details.

Goals

1. One-stop solution for Students, Schools, Boards, Teacher, Parent, Management, Administration, Government stakeholders
2. Cater to as much as use cases and bring out efficiencies and effectiveness
3. Lead to more innovative ways for e-learning and information systems.

Specifications

This is being built from scratch based on the real-time world understanding based on our expert knowledge. Community is most welcome to fine-tune it.

Sprint # 1: Identify Objects and Relationships among them.

Sprint Duration : 0.5 days

Status : WIP

Platform Actors

1. Students
 - a. FirstName
 - b. LastName
 - c. Tag lists - Interests
 - d. Tag lists - Skills
 - e. Tag lists - Hobbies
 - f. Section:references
 - g. Course:references
 - h. Subject:references
 - i. Parent:references

- j. has_many:Addresses
 - k. has_one:PrimaryAddress < Address
 - l. has_many:emailAddresses
 - m. has_one:PrimaryPhoneNumber < PhoneNumber
 - n. has_many:PhoneNumbers
 - o. has_many:Exams
 - p. has_many:Events
 - q. has_many:Courses
 - r. Has_many:subjects
 - s. Has_many ProfilePictures < Pictures < Infolet < richtext
 - t. Has_one:ActiveProfilePicture < ProfilePicture < Picture < Infolet < richtext
 - u. Has_many:Pictures < Picture < Infolet < richtext
2. Picture
 - a. Image < Infolet < RichText
 3. ProfilePicture
 4. SchoolProfilePicture
 5. SchoolPicture
 6. NonTeachingImages < Picture
 - a. Picture : image < Infolet < Richtext
 7. TeachingResource < Infolet
 - a. image
 - b. **belongs_to:AcademicYear**
 - c. belongs_to:subject
 - d. Belongs_to:course
 - e. Url:String
 - f. Description : rich_text
 - g. Uploaded_by:
 - h. Reviewed_by:
 - i. Approved_by:
 - j. Contains a Feed < StudentActivity < Feed
 8. Addresses
 - a. Street1:String
 - b. Street2:String
 - c. Location:String
 - d. City:String
 - e. Pincode:String
 9. Phones
 - a. CountryCode:String
 - b. Phone:String
 10. EmailAddresses

- a. emailText:String

11. Feed < Infolets

- a. contains Infolets
- b. **belongs_to:AcademicYear**

12. Schools

- a. Brief < Infolet < RichText
- b. has_many:classes
- c. has_many:teachers
- d. has_many:Staff
- e. has_one : ProfilePicture
- f. Has_many:pictures
- g. has_many:ContentPages < Infolet < RichText
- h. has_many:Feeds < Feed
 - i. All Feed
 - ii. TeacherActivityFeed < Feed
 - iii. StudentActivityFeed < Feed,
 - iv. ClassActivityFeed < Feed
 - v. SectionActivityFeed < Feed
- i. **belongs_to:AcademicYear**

13. Teachers

- a. Brief < Infolet < RichText
- b. Has_many:sections
- c. has_one:ProfilePicture
- d. has_many:Pictures
- e. has_many:ContentPages
- f. has_many:Feeds
 - i. SectionActivityFeed < Feed
 - ii. SubjectActivityFeed < Feed
 - iii. CourseActivityFeed < Feed
- g. **belongs_to:AcademicYear**
- h. **belongs_to :School**

14. NonTeachingStaff

- a.

15. SchoolClasses

- a. Brief < Infolet < RichText
- b. Name
- c. has_many ClassTeacher < Teacher
- d. Has_many Feeds
 - i. ClassActivityFeed < Feed
 - ii. SectionActivityFeed < Feed
 - iii. CourseActivityFeed < Feed

- e. **belongs_to:AcademicYear**
 - f. belongs_to:School
 - g. has_many:Sections
 - h. has_many:Exams
 - i. has_many:Events
 - j. has_many:
16. SchoolSections
- a. Brief
 - b. Name
 - c. has_many:SectionTeacher < Teacher
 - d. has_many:Students
17. Boards
18. Governments
19. Administrations
20. Managements
21. EduGroups
22. TimeTables
23. ExamTimeTables
24. HomeWorks
25. Assignments
26. Parents
27. Family
28. Associations
29. Inspections
30. Exams
31. ExamRegistrations
32. ExamAdmissions
33. ExamSchedules
34. ExamHallTickets
35. ExamInvigilatorRegistrations
36. ExamInvigilatorAdmissions
37. ExamCenters
38. ExamOrganizers
39. ExamResults
40. Event
41. EventOrganizers
42. EventRegistrations
43. EventAdmissions
44. EventSchedules
45. EventHallTickets
46. EventInvigilatorRegistrations

- 47. EventInvigilatorAdmissions
- 48. EventCenters
- 49. Evaluations
- 50. EvaluationRegistrations
- 51. EvaluationAdmissions
- 52. EvaluationSchedules
- 53. EvaluationHallTickets
- 54. EvaluationInvigilatorRegistrations
- 55. EvaluationAdmissionRegistrations
- 56. EvaluationCenters
- 57. Alumni
- 58. Publishers
- 59. Distributors
- 60. Shops
- 61. Forums
- 62. Certificates
- 63. Affiliations
- 64. AcademicYears
- 65. Subject
- 66. ClassTeacher
- 67. AcademicPeriod
- 68. AcademicDay

Platform Actor Attributes:

Actor Relationships:

1. Student belongs to a Section i.e a Section has_many students
2. Student belongs_to a Subject i.e A Subject has_many Students
3. Section belongs to a Class i.e a Class has_many sections
4. Section belongs_to a ClassTeacher ie. ClassTeacher has_many Sections (It's a Junction Object between Section and Teacher)
5. A subject can have a teacher and multiple students.(i.e a section-A rigid structure or course - A Flexible optional structure)
6. Subject belongs_to a Section i.e A Section has_many subjects
7. Class belongs to a School i.e a School has_many classes
8. Teacher belongs_to School i.e a School has_many Teachers
9. Teacher belongs_to Section i.e a Section has many Teachers
10. Student belongs_to a Teacher through Subject (Subject is a Junction object having Student,Teacher and a Subject name)

11. School belongs_to to affiliations i.e an Affiliation has_many schools(VB , DAV having many schools)
12. School belongs_to to a Management i.e an Management has_many schools(Velammal)
13. School belongs_to a Board i.e a Board has_many_schools.
14. Management may belongs_to an affiliation i.e an Affiliations has_many Management Groups.
15. AcademicPeriod has a Start_time and End Time and a Duration in minutes.
16. AcademicPeriod belongs_to Subject i.e a Subject has many AcademicPeriods
17. TimeTable has_many Teachers i.e Teacher has_many TimeTables
18. AcademicPeriod belongs_to to a AcademicDay i.e AcademicDay has_many AcademicPeriods
19. Exam may be of different types - Intra section, IntraClass, IntraSchool, InterSchool, InterGroup, InterBoard, OpenCompetitive
 - a. IntraSection - It is within a Section and doesn't require much preparation and usually conducted by Subject Teachers like Unit Test. Spanned within a School.

Sprint # 2

Sprint Goal : Implement the OR identified in Sprint # 1 and build a MVP with basic/core features.Database Migrations to be achieved.

Estimated Duration : 0.5 days

Actual Duration : ?

Status : WIP.

Build Activities :

- rails new Shiksha
- Added following Gems
 - ◆ gem 'acts-as-taggable-on', '~> 6.0'

```

◆ gem 'devise'
◆ gem 'omniauth'
◆ gem 'omniauth-digitalocean'
◆ gem 'omniauth-facebook'
◆ gem 'omniauth-google-oauth2'
◆ gem 'omniauth-github'
◆ gem 'rails_admin'
◆ gem 'image_processing'
◆ gem 'words_counted'
◆ gem 'omniconacts'
◆ gem 'google-api-client'
◆ #gem "passenger", ">= 5.3.2", require: "phusion_passenger/rack_handler"
◆ gem 'cancancan'

```

```

→ bundle install
→ rails g model content title:string:index
→ rails active_storage:install
→ rails action_text:install
→ rails g model Person FirstName:string LastName:string DoB:date roles:string
  --force
→ rails g model Leave start:date end:date
→ rails g model Holiday start:date end:date
→ rails g model AcademicYear start:date end:date
→ rails g model Phone country_code:string phone_no:string --force
→ rails g model EmailAddress email:string
→ rails g model EduGroup name:string start:date end:date
→ rails g model Person FirstName:string LastName:string DoB:date roles:string
  --force
→ rails g model School name:string start:date end:date EduGroup:references
→

My Assignment - Student view

The screenshot shows a Chrome browser window displaying a student's assignment submission on the Shiksha platform. The browser's address bar shows the URL `localhost:3000/#about`. The page header includes the Shiksha logo and navigation links for U-Mains, U-Maths, and U-English. The main content area shows a post by 'Uma,Teacher' (uma_849@shiksha.com) from about 2 hours ago, titled 'Write 4*4 table'. Below the title, there are 4 comments:

- Chakku,Student : I will attach my tables work here
- Uma,Teacher : Well done
- Chakku,Student :

The student's submission is a 4x4 table with the following content:

| | | | |
|------------------------|--|--|--|
| TernaryBit | | | |
| Infinite Possibilities | | | |
| TernaryBit | | | |
| Infinite Possibilities | | | |

The submission is a JPEG file named 'TBit.001.jpeg' (88.1 KB). Below the submission, there is a comment from 'Uma,Teacher' stating 'This is not Ternary its binary'. The bottom of the browser window shows the macOS dock with various application icons.
